

**102003/CS722T Seminar  
S7 CSA (2023–2027 Batch)**

| Sl. No | Paper Title and Author(s) Name                                                                                                               | Journal Name                  | Published Year | SCI/Scopus   | Base Paper (Yes/No) |
|--------|----------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------|----------------|--------------|---------------------|
| 1      | Multimodal Deep Learning for Integrating Chest Radiographs and Clinical Parameters: A Case for Transformers<br>Firas Khader et al.           | Radiology                     | 2023           | SCI & Scopus | Yes                 |
| 2      | IRENE: A Transformer-Based Representation-Learning Model with Unified Processing of Multimodal Input for Clinical Diagnostics<br>Zhou et al. | Nature Biomedical Engineering | 2023           | SCI & Scopus | No                  |
| 3      | MDF-Net for Abnormality Detection by Fusing X-rays with Clinical Data<br>Hsieh et al.                                                        | Scientific Reports            | 2023           | SCI & Scopus | No                  |
| 4      | Interstitial Lung Disease Diagnosis and Prognosis Using an AI System Integrating Longitudinal Data<br>Mei et al.                             | Nature Communications         | 2023           | SCI & Scopus | No                  |
| 5      | Deep Learning-Based COPD Exacerbation Prediction Using Flow-Volume and Volume-Time Curve Imaging: Retrospective Cohort Study                 | JMIR                          | 2025           | Scopus       | No                  |
